SUMMARY

Full stack web developer specializing in front-end technologies with 5 years of experience building fast, user-friendly applications in ReactJS and VueJS. Experienced across the stack with REST APIs, SQL/NoSQL databases, and frameworks like Express, Firebase, and Ruby on Rails. Excited about the future of AI-assisted development and actively applying tools like Cursor and GitHub Copilot to write cleaner code, solve problems faster, and deliver better products.

EXPERIENCE

Freelance

2020 - Present

- Developed and maintained web applications using ReactJS, Next, and Typescript/Javascript, staying updated with the latest technologies.
- Worked as a part-time freelancer, delivering high-quality front-end solutions and collaborating with clients to meet their requirements.
- Balanced full-time parenting responsibilities while continuously enhancing technical skills and preparing for a full-time role.
